Reducing 3-SAT to PHRASE DECISION

Anatomy of a reduction

- Choose an old problem that is known to be NP-hard.
- Show that we can solve that old problem easily if we can solve our new problem.
- Conclude that if the new problem were in P, the old problem would be too (which it's not, we think).

Reducing 3-SAT to PHRASE DECISION

$$v_1 \vee v_2 \vee v_3$$

$$\bar{v}_1 \vee v_2 \vee \bar{v}_3$$

$$\bar{v}_1 \vee \bar{v}_2 \vee \bar{v}_3$$
